

Take a screenshot or record your screen on your Android device

You can take a picture (screenshot) or record a video of your phone's screen. After you capture your screen, you can view, edit, and share the image or video.

Note: Some of these steps work only on Android 11 and up. Learn how to check your Android version.

Take a screenshot

1. Open the screen that you want to capture.
2. Depending on your phone:
 - Press the **Power** and **Volume down** buttons at the same time.
 - If that doesn't work, press and hold the **Power** button for a few seconds. Then tap **Screenshot**.
 - If neither of these work, go to your phone manufacturer's support site for help.
3. At the bottom left, you'll find a preview of your screenshot. On some phones, at the top of the screen, you'll find Screenshot capture .

Find, share & edit your screenshot

Tip: If you don't have the Photos app, you're likely running an older Android version. Open your phone's Gallery app and tap **Album view** > **Screenshots** folder.

1. Open your phone's Photos app .
2. Tap **Library** > **Screenshots**.
 - To share a screenshot, tap **Share** .
 - To edit a screenshot, tap **Edit** .

Record your phone screen

1. Swipe down twice from the top of your screen.
2. Tap **Screen record** 
 - You might need to swipe right to find it.
 - If it's not there, tap **Edit**  and drag **Screen record**  to your Quick Settings.
3. Choose what you want to record and tap **Start**. The recording begins after the countdown.
4. To stop recording, swipe down from the top of the screen and tap the **Screen recorder** notification .

Find screen recordings

1. Open your phone's Photos app .
2. Tap **Library** > **Movies**.
